

## Executive Summary

### *A Quartet of Quotes*

“Every person needs a place that is furnished with hope.”

-Maya Angelou

“Children grow into the intellectual life around them.”

-Leo Vygotsky

“Better is possible. It does not take a genius. It takes diligence. It takes moral clarity. It takes ingenuity. And above all, it takes a willingness to try.”

-Atul Gawande

“Education either functions as an instrument which is used to facilitate integration of the younger generation into the logic of the present system and bring about conformity or it becomes the practice of freedom, the means by which men and women deal critically and creatively with reality and discover how to participate in the transformation of their world.”

-Paulo Freire

### *SY 2019-2020*

For the past few years, and since we began the work of adopting, implementing, and evaluating year-long Turnaround Plans, we have described the Wright Academy as “a school on the move.” This remains true. However, our plan for 2019-2020 is largely focused on taking stock of the progress we’ve made in the past two years, and working to integrate rigorous academics with supportive and trauma-informed social-emotional learning. That is to say, our focus is to move from good to great, strengthening consistent practices and maximizing the effectiveness of the many assets we already have in place.

Two years ago, our focus was on higher-order thinking. We worked relentlessly to develop vertical content teams and tasked them to define what rigor, inquiry, and complex learning looked like in their classrooms. Last year, we prioritized focused instruction,

leveraging a school-wide instructional framework to ensure all students had consistent access to this content, and that all teachers could assess and evaluate mastery. Additionally, we've worked to solidify our social-emotional programming and our reading and math intervention block, dedicating committees to each of those initiatives. We have invested, collaborated, and improved in this work as a whole school, with all hands on deck, from coaches and teacher leaders to our student support team, paraprofessionals, and administrators. This work is stronger than it has ever been, and we will continue to be deliberate and reflective in moving it even farther forward this year.

This year, we are layering on two new areas of focus, both of which will solidify our continued mission to deliver rigorous instruction, supportive social-emotional learning, and targeted intervention programming. First, we will bridge the connection between maximizing our instructional framework and complex higher-order thinking by prioritizing instructional strategies. As a school, we will learn, analyze, practice, reflect upon, and refine best practices that actualize deep learning and authentic engagement. Secondly, we will tap into our strong culture and climate, leveraging our strong faculty-faculty and faculty-student relationships in order to bolster our school-wide approach from "warm" to "warm demander." We will adopt *Culturally Responsive Teaching and The Brain* as our anchor text and will preserve Faculty Meeting time for professional learning around the mindsets, knowledge, and skills outlined within the book. The subtitle of this text is "promoting authentic engagement and rigor among culturally and linguistically diverse students," and the text itself focuses on creating a culture of high expectations, cultural relevance, and building authentic learning partnerships in order to develop academic mindset within each and every student. This is the very urgent, meaningful, rewarding, and complex work that keeps us up at night and fires us up each morning, and we will work together, as one school and one team, to take on this adaptive work, and to empower our students.

Our goal is to create and sustain a school where every student feels they can belong, succeed, grow, and prepare for high school, college, career, and the future. We will continue to welcome and educate each and every child, and to honor the hopes and dreams of our families and our larger Chelsea community. With this plan for 2019-2020, we will have our boldest and most powerful year yet.

**Turnaround Practice(s):** *Which turnaround practice(s) are you addressing?*

A

1. Leadership, Shared Responsibility, and Professional Collaboration
2. Intentional Practices for Improving Instruction

	<p>3. Student-Specific Supports and Instruction to all Students 4. School Climate and Culture</p>
B	<p><b>Overarching Goal:</b> <i>What are you trying to achieve with work with this turnaround practice(s)?</i></p> <ul style="list-style-type: none"> <li>● We will highlight and implement targeted instructional strategies to support high quality teaching in Tier 1 instruction, building upon our previous Turnaround Plans' foci on an Instructional Framework for Focused Instruction (SY 2018-19) and Higher-Order Thinking (SY 2017-18) in both Tier I and WIN and foster a culturally responsive mindset in staff to ensure the success of all students.</li> </ul>
C	<p><b>Theory of Action:</b> <i>Data analysis and challenges (including data from last year), rationale for this work</i></p> <ul style="list-style-type: none"> <li>● If teachers plan and implement every lesson using the schoolwide Instructional Framework with shared expectations for rigor and instructional best practices to meet all students' needs, <b>then</b> students will have consistent access to high-quality curriculum, instruction, and assessment that builds their confidence and independence, increases engagement, and leads them toward higher-order thinking that ensures successful mastery of content knowledge and skills.             <ul style="list-style-type: none"> <li>○ Rationale:                 <ul style="list-style-type: none"> <li>■ Defining common expectations for high-quality instructional practices that address clearly identified student-specific needs will help all students thrive and succeed.</li> <li>■ Using and analyzing a variety of student-specific data to assess the effectiveness of our teaching will help us to modify instruction to meet the needs of all students.</li> <li>■ Strengthening WIN will provide targeted instructional interventions and supports to all students.</li> <li>■ Focusing on leveraging culturally responsive teaching to integrate more effective academic and social emotional components into the day to day teaching and learning for our teachers and students will result in more positive relationships focused on high academic and behavioral expectations, stronger teacher pedagogy and student engagement, and an overall greater understanding of our students' strengths, cultures, and interests.</li> </ul> </li> </ul> </li> </ul>
